Education

University of Toronto

Sep. 2024 – Apr. 2029 (expected)

Bachelor of Applied Science and Engineering in Computer Engineering + PEY Co-op

- Relevant courses: Engineering Strategies and Practices; Electrical Fundamentals; Introductory Electronics; Calculus II; Computer Fundamentals (C/C++); Digital Systems (Verilog/FPGA Design)

Technical and Professional Skills

Programming Languages: Python, C/C++, JavaScript, TypeScript, SQL, HTML, CSS

Frameworks & Libraries: React, Node.js, Tailwind, FastAPI, SQLite,

Tools & Platforms: Git, MATLAB, Visual Studio Code, Linux/UNIX

Professional Skills: Teamwork, Communication, Problem-Solving, Leadership

Experiences

Project Management Internship | Intern

June 2025 – Aug. 2025

- Developed an **AI-powered E-Invoicing Assistant** that processed client tax queries in under **5 seconds**.
- **Built and deployed** a **RESTful API** with **FastAPI**, enabling **seamless integration** into client systems.
- Optimized responses using **retrieval + caching techniques (RAG/CAG)** from an **SQLite DB**
- **Engineered** response pipelines using a local **LLM (Deepseek)** from **Ollama**.

Camera Strap Redesign – Engineering Strategies | Communication Liaison

Jan. 2025 – Apr. 2025

- Worked with **client** to design a solution to **replace/redesign camera straps**
- **Responsible** for all communication between client and team in coordination with an Engineering Manager
- Created **Gantt Charts** and **Status Reports** for the team to keep track of the team's progress

Bahen Courtyard Sustainable Food Initiative – Engineering Strategies | Team Lead

Sep. 2024 – Dec. 2024

- Worked with the team and produced a **problem statement** that allowed us to generate solutions
- **Responsible** for submitting assignments and made sure all assignments and tasks were done on time
- Communicated with the team about upcoming deadlines which allowed us to get work done earlier

School Student Prefect | Member

Sep. 2020 – June 2024

- Facilitated **communication** between students and school administration to advocate for the student body
- **Organized** fundraising events which raised over **\$600 CAD** to fund events in which over 40 people attended
- Provided solutions to school administration regarding student dissatisfaction resulting in more students re-enrolling
- Collaborated with the Student Council to organize over **20 events** over a span of 4 years

Co-Curricular Activities

FPGA Design Project

Sep. 2025 – Present

- Designed a rhythm game using the **DE1-SoC Board**, which incorporated a VGA Display, Keyboard and Speakers
- Implemented FSMs, Shift Registers and Counters in **Verilog** to implement game logic and output graphics on the VGA.
- Created **ModelSim testbenches** to simulate and test the Verilog code which assisted in debugging issues.

Coding Projects

Apr. 2022 – Present

- Built **multiple projects** including a [Travel Guide](#), Photo Gallery and a [Personal Website](#)
- Hosted multiple Websites for each project using **GitHub Pages** and **Vercel**
- **Utilized HTML, CSS, Tailwind, TypeScript and JavaScript** to code and design the projects

Model United Nations

Feb 2024

- Primary form of communication between **60 delegates** and the chairs
- Cooperated with **30** other admins to ensure smooth operation throughout the event
- Organized the award ceremony
